# STUDENT'S PROJECTS STUFF

Project By: SHAYAN SHAIKH (FA18-MCSW-0005)
Supervised By: AHMED RAZA (Lecturer) (Foreign Students Advisor)
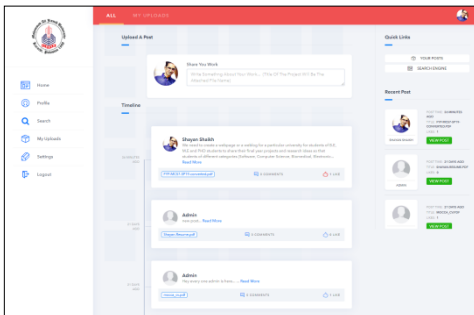

ABSTRACT

Student Project Stuff is a web based application which refers to project storage systems with comments and like feature. It manage the projects and reports using a web based computerized system where university students of any group can record various posts and have their own Facebook twitter like timeline. In posts, abstract of final year projects will be the content and for comments we use API which will count the number of +ve comments and –ve comments on each post after a particular time that will be used to declare a post as a highly ranked post.
